

**BOWEL PREPARATION INSTRUCTIONS
COLONOSCOPY UNDER GENERAL ANAESTHETIC
WEDNESDAY AFTERNOON**

Prior to your colonoscopy it will be necessary for you to undergo a bowel preparation. This involves taking a laxative preparation, and consuming clear liquids only the day prior to your procedure .

Instructions :

A prescription for PicoPrep is enclosed with this information pack. Please do not exceed the recommended dosage. The preparation will cause multiple bowel movements. Individual responses to laxatives will vary; it may take effect within 30 minutes, but could take up to several hours. Please remain within easy reach of toilet facilities.

**If you are taking anticoagulation therapy (Warfarin, Aspirin etc)
please contact us for additional instructions.**

Have your normal evening meal on Monday.

On Tuesday morning, prior to 7am, have a light breakfast

Thereafter on Tuesday -

1. Avoid any type of solid food as well as milk, or milk products - these are not permitted.
